SOUTH AFRICAN WINE GROWING AREAS

WINE OF ORIGIN

Although winemaking in South Africa dates back over 300 years, it was only in 1972 that legislation was passed to recognise and protect the distinctive qualities that wine derives from certain areas, estates and grape varieties. Wine of origin stated on the wine list are not necessarily where the farm is situated, but rather where the grapes are sourced from. There are many proclaiming areas but the ones our wine list focusses on is Franschhoek Valley, Paarl, Robertson, Stellenbosch, Constantia, Darling, Tulbagh, Elim, Elgin, Hemel-en-Aarde Valley, Helderberg, Wellington and Swartland.

Franschhoek Valley
The Franschhoek Valley is a small but significant region, inland (to the west) of Stellenbosch. Surrounded by the Drakenstein Mountains, the wide variety of soils and relatively high rainfall permits production of a wide variety of wine styles. It's a hotter region than Stellenbosch, and with its profusion of trendy restaurants it can rightfully claim to be the gourmet capital of the winelands. A district with 1 395 ha under vine, recognised for Cabernet Sauvignon and Sèmillon.

Paarl
Well known region north-west of Cape Town, and home to several leading producers, including Seidelberg, Ridgeback, Rhebokskloof, Glen Carlou and Backsberg. This district has many mesoclimates, soils and aspects, and thus succeeds with a variety of styles and grapes. Paarl proper is recognized for Shiraz and, more recently, Viognier and Mourvèdre grown on warmer slopes.

Robertson
Some 120 km east of Cape Town, next door to Worcester, this hot region is rather paradoxically best known for its whites. De Wetshof, Weltevrede and Graham Beck are among the leading producers here. Increasingly recognised for Shiraz and Cabernet Sauvignon. Chardonnay, Sauvignon Blanc and Sparkling remain standouts.

Stellenbosch
To many, this intensively farmed district is the wine capital of South Africa. Key contributors to quality are the cooler mountain slopes, varied soil types and breezes off False Bay which moderate summer temperatures.

Constantia
Premier viticultural ward on the eastern flank of the Cape Peninsula, cooled by south-easterly sea breezes. Recognised for white generally, notably Sauvignon Blanc, Sèmillon and Muscat.

Darling
District encircling the eponymous West Coast town, best known for the wines from the higher lying ward, Groenekloof, long the source of top Sauvignon; growing reputation for reds, especially Shiraz.

Tulbagh
Inland district traditionally known for sparkling and lights whites, more recently for quality reds and serious white blends.

Elim
Maritime ward within the Cape Agulhas district, its 133 ha of vineyards are arrayed around the old mission village of Elim near Africa's most southerly point.

Elgin
Cool upland district within the Cape South Coast region, yielding aromatic whites and elegant reds.

Hemel-en-Aarde Valley
Highly regarded maritime district south-east of Cape Town, recognised for Pinot Noir, Pinotage, Sauvignon Blanc and Chardonnay.

Swartland
Traditionally associated with full-bodied reds, but latterly also within Chenin and Mediterranean-style red and white blends.

WHITE WINE

PREMIUM WHITE BLENDS

Blending different wine varietals might just be the most creative part of being a winemaker. It's the moment where you get a chance to exercise your skills at flavour balancing. The process of blending goes beyond just putting grape varieties together. Many winemakers go through a rigorous barrel selection process to identify the best tasting wines. A combination of grape varieties such as Viognier, Chardonnay and Chenin Blanc and have an elegant structure of flavours, including vanilla, apple and blackcurrant. The success of a blended wine is that it is easy to drink and keeps its elegance. In most cases, the goal is to create a wine that is greater than the sum of its parts.

Boschendal Suzanne 2023 *Elgin* Semillon and Sauvignon Blanc blend showing key lime, white nectarine, and green fig. The palate delivers structured stone fruit and a stony minerality	205	830

RED WINE

PINOT NOIR

Pinot Noir is a red wine grape variety of the species Vitis vinifera. The name may also refer to wines created predominantly from pinot noir grapes. The name is derived from the French words for pine and black. The pine alluding to the grape variety having tightly clustered, pinecone-shaped bunches of fruit. Pinot Noir creates a lasting impression on the palate and in the memory, it has a soft, velvety texture, it is like liquid silk, gently caressing the palate. Its aroma is often one of the most complex of all varietals and can be intense with a ripe-grape or black cherry aroma, frequently accented by a pronounced spiciness that suggests cinnamon, sassafras, or mint.

RED WINE

PINOTAGE

Pinotage is a red wine grape that is South Africa's signature variety. A 1920's cross between Pinot Noir and Cinsault (also known as Hermitage). It typically produces deep red variety wines with smoky, bramble and earthy flavours, sometimes with notes of bananas and tropical fruit. The majority of the world's plantings of Pinotage is found in South Africa, where it makes up just 6% of the vineyard area but is considered a symbol of the country's distinctive winemaking traditions. It is a required component (30-70%) in "Cape blends". Here it is made into the full range of styles, from easy-drinking quaffing wine and Rosé to barrel-aged wine intended for cellaring. It is also made into a fortified 'Port wine' style, and even a red sparkling wine. The latest and fastest growing trend is the production of coffee styled Pinotage. The grape is very dependent on the skill and style of winemaking, with well-made examples having the potential to produce deep coloured, fruity wines that can be accessible early as well as age.

RED WINE

MERLOT

Merlot is a dark, blue-coloured wine grape variety that is used as both a blending grape and for varietal wines. The name Merlot is thought to be a diminutive of merle, the French name for the blackbird, probably a reference to the colour of the grape. Its softness and "fleshiness", combined with its earlier ripening, makes Merlot a popular grape for blending with the sterner, later-ripening Cabernet Sauvignon, which tends to be higher in tannin. It typically produces a soft, medium-bodied red wine with juicy fruit flavours. A range of fresh flavours such as plums, cherries, blueberries and blackberries mixed with cocoa and black pepper tones, often dominate this type of red wine.

Jordan Black Magic 2023 *Stellenbosch* Showing dense black cherry, dark plum, and aromatic French oak spice. Framed by smooth, structural tannins and a lingering dark chocolate finish.	170	680

FORTIFIED AND DESSERT WINE *per Double (50ml)*

Distilled alcohol (brandy spirit or wine spirit) is added to natural wine. Thereby the alcohol content increases. Fortified wine is a wine to which a distilled spirit, usually brandy, is added. Dessert wines can be made with grapes that have a high sugar level or brix at harvest, they can be made through adding sugar during the winemaking process, a process known as chaptalisation, or through fortifying. Dessert wines are typically paired with foods that are less sweet than the wine, or they can be enjoyed on their own.
